We are a leading Manufacturers of Brass Line taps Brass Split Bolt Connectors electrical Brass Split bolts from Jamnagar state of India. We have our own Brass extrusion plant and make pressure pad body and nuts from high quality and high Copper CDA 360 Brass alloys. These line taps /Split bolts connectors are idea for connecting Copper to Copper cables and earthing grounding

conductors. These are used for high voltage overhead line electrical wiring as well.

We also have facility to CNC machine Brass line taps to offer precision and close tolerances.

**Sizes of BRASS LINE TAPS :** 6mm<sup>2</sup> , 10mm<sup>2</sup> ,16mm<sup>2</sup> , 25mm<sup>2</sup> , 35mm<sup>2</sup>, 50mm<sup>2</sup>, 70mm<sup>2</sup>, 95/100 mm<sup>2</sup>, 120mm<sup>2</sup>, 185mm<sup>2</sup>, 240mm<sup>2</sup>, 300mm<sup>2</sup>, 400 mm<sup>2</sup>,

Material for Line Taps Split bolt connectors: Brass CDA 360, Copper, Aluminium

Finish of Brass Line taps Brass Split Bolts: Tin plated and silver plated Line taps and split bolt connectors can be offered.
