
Stamped Parts Brass Stamped Components

Stamped Parts Brass Stamped Components

We offer a wide range of Brass pressed parts /stamped parts Brass pressed components / stamped components.

Brass stamped parts
Brass stamped components

We are a leading manufacturers exporters and suppliers of **Brass stamped parts Brass stamped components Brass forging Brass stamping** from jamnagar india. Manufacturing Brass stamped parts and stamped components, Metal stamping / forging means a variety of sheet metal forming manufacturing processes, such as punching, stamping, blanking, embossing, bending, flanging, and coining. This could be a single stage operation where every stroke of the press produces the desired form or part from the strip or sheet metal, or the part may require a series of strokes through a multiple die/tool. We at Brass Neutral Links India have full range of custom metal stampings in Brass ,Stainless Steel, (304 /316) ,Bronze , copper and aluminum alloys. We specialize in metal stamping processes such as fine blanking, punching, deep draw, progressive die, and modular die.

Our automatic Japanese power presses and compound dies/tooling ensure high quality production in a very cost efficient way. Our range of Brass Stamped parts and Brass stamped components, Brass stamping , Copper stamped parts and components is supplied to electric industry. Railways, Defense, Telecommunication, Power industry etc in 34 countries.

Our Capabilities with tooling	Fine Blanking Tooling Punch Tooling Deep Draw Tooling Progressive Tooling Modular Tooling
Metals We work with	Brass Alloys for Brass stamped parts and Brass stamped components Bronze Sheet metal components, Aluminum Alloys Copper & Copper Alloys Nickel & Nickel Alloys Stainless Steel Alloys
Our Nakichima power Presses Tonnage	Various sizes of presses are used and are dependant on part size and material to be stamped.
Stamping and forging Tolerance	+ /- 0.1mm
Other Services offering value addition	Drilling/Tapping Machining Painting Plating (all types) Powder coating & other coatings available
Typical Lead Time	Existing tooling 10-12 weeks or sooner. Expedited service is available. New tooling FAS (First Article Samples) 6-8 weeks and after approval production 6-8 weeks
Quality Assurance	Chemistry Compliance - full certification Hardness, elongation, and tensile strength to ensure high quality in the final metal stampings. Dimensions are tightly controlled by Micrometer.

Finish: Nickel plated, natural, hand polished, Tin plated, Silver

ADDEESS:

BRASS NEUTRAL LINKS PRIVATE LIMITED

Plot 12
GIDC Ind estate
Udyognagar
