
Aluminium Manifolds Aluminium Pipe Manifolds

Aluminium Manifolds Aluminium Pipe Manifolds

Aluminium Manifolds Aluminium Pipe Manifolds Threaded Aluminum Manifolds

Aluminium Manifolds Aluminium Pipe Manifolds Threaded Aluminum Manifolds

We manufacture Aluminium manifolds in rectangular sections. These Aluminium manifolds pipe manifolds are designed for the valve installation used to distribute the fluid in the manifold port. these Aluminium manifold are machined on our Japanese machining centers and can be offered in multiple outlet ways and threads. We offer various threads in BSP BSPT NPT NPTF type. Our Aluminium manifolds and valve manifolds can be installed on reservoirs, operation stations with bracket or installation holes. Our wide range of production of manifold circuit offers a safe and cost effective way of adding valves or other fluid power components and fittings.

We also offer a lot of hydraulic fittings and fluid power fittings and accessories.

Finish: Aluminum Natural and Anodized

pressure: Appx 210 bars

Threads: 1/8" 1/4" 3/8" 1/2" 3/4" NPT BSP BSPT NPTF
